SUMMARY

Final-year B.Tech student and aspiring **Web Developer** with a passion for building complex, data-driven **dashboards**. Experienced in integrating **FastAPI** backends with modern **React.js/Next.js** interfaces to visualize real-time data. Committed to writing clean, maintainable **JavaScript** and continuous learning in a remote-first environment.

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, SQL, HTML5, CSS3
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, ReactFlow
- **Tools & Platforms:** Git, GitHub, REST APIs, MongoDB, AWS (EC2), Vercel

PROJECTS

Cortexa - Interactive Interview Platform | *Next.js 14, Node.js, Express.js* | [[GitHub](#)] May – Jul 2025

- Developed a scalable full-stack **dashboard** using **Next.js 14**, featuring **real-time data synchronization** for collaborative coding sessions.
- Implemented **secure authentication** and role-based access, converting complex design requirements into a polished, **responsive UI**.
- Optimized **frontend performance** to handle concurrent user interactions, ensuring reliability similar to production-grade **SaaS** applications.

VectorShift Pipeline Builder | *React.js, TypeScript, FastAPI, ReactFlow* | [[GitHub](#)] Jan 2026

- Engineered a complex visual **dashboard** for pipeline creation using **React.js** and **TypeScript**, utilizing **ReactFlow** to visualize dynamic **graph data structures**.
- Integrated a **FastAPI** backend to process and display **real-time test data**, ensuring robust validation to prevent circular dependencies.
- Built a responsive, **glassmorphic User Interface (UI)** with modular components, focusing on **clean code** architecture and seamless **User Experience (UX)**.

RakshaChakra - Security & Analytics Mobile UI | *AWS (EC2), Flutter* | [[GitHub](#)] Jun – Jul 2025

- Designed a **security analytics** interface that visualizes behavioral data to drive decision-making and provide **real-time user feedback**.
- Deployed the application on **AWS EC2**, ensuring high availability and optimizing **rendering performance** for a smooth user experience.
- Established a consistent **design system** with **reusable components**, significantly reducing code redundancy and improving debuggability.

ACHIEVEMENTS CERTIFICATIONS

- **IBM Gen AI Certification:** Gained practical knowledge of **LLMs**, applying generative AI tools to accelerate development workflows.
- **TCS CodeVita 2025 (Round 1):** Ranked in top 5% (4,811/100,000), demonstrating strong **algorithmic logic** and problem-solving abilities.
- **Codeforces Pupil (1280):** Active competitive programmer with a "figure it out" attitude toward complex **algorithms** and **data structures**.
- **Canara Bank Suraksha Hackathon 2025:** Top 105 teams from 4,000+; collaborated with a team to build and ship innovative **fintech solutions**.
- **Smart India Hackathon 24':** Selected for national-level innovation event, focusing on **rapid prototyping** and user-centric design.

EDUCATION

Vellore Institute of Technology

Oct 2022 – Jun 2026

Bachelor of Technology (B.Tech), Computer Science and Engineering

CGPA: 8.77/10.0
